REGULATIONS.

1. **DEPOSITS** will be received as low as one dollar, and when any person's deposits shall amount to five dollars, they will be put upon interest, at such times as are hereafter named; but no fractional parts of a dollar will be received.

2. All sums deposited on the third Monday in January, April, July and October, go immediately on interest. Deposits made after the third Monday in January, April, July and October, will not commence drawing interest until the beginning of the following quarter.

3. A dividend of the income or profits of this institution will be declared payable semi-annually, on the third Mondays of January and July, but no interest will be paid on any sums withdrawn before said dividend.

4. All dividends that are not withdrawn, will be added to the principal, or sum put in, and the depositors will thereby obtain compound interest.

5. The Treasurer is authorized to pay out to the depositors the whole or any part of their deposits or dividends, at any time when called for.

6. The members of the Board of Trustees do not receive any emolument for their services, nor can any money be loaned to either of them.

7. If persons die who have money in the Savings Bank, the money will go to their heirs, or persons to whom they may have given it by will.

Special Notices.

CONSUMPTIVES, TAKE NOTICE.

Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cured.

Dr. Schenck will be at the Quincy House, Boston, on the following Wednesdays, from 9 to 3 o'clock: Jan. 13th and 27th, Feb. 10th and 24th, and March 10th and 24th. Consultation free but for a thorough examination of the lungs, with the Respirometer, the price is $5.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Streets, Philadelphia, every Monday, where all letters of advice must be addressed. jan9-eod

Bellevue Avenue, Newport.
Bouquets, Baskets, Cut Flowers and Choice Plants.
Gardens laid out and kept in order by the day, months or year.

NEWPORT EXOTIC GARDEN.

WHERE can I find it? is sometimes asked by strangers, but never by old visitors.

Now is the time to secure your bedding plants. Never before had such a quantity and never such fine plants as this season, consisting of all the new and rare plants. All we desire, is to come and look and see for yourselves. Roses, Dracenias, Centaurias, Geraniums of all sorts, Carnations, Coleous, &c., all of these by the hundred or thousand. Hundreds of other varieties of bedding and foliage plants, all at low rates. Baskets, Stands, Vases, Jardinieres. A fine lot of Ferns, Begonias, Caladiums, Palms, Euphorbias, Camelias and Azalias, Rose Buds by the hundred, and everything pertaining to a first-class Horticultural Establishment. ☞ All orders received this season for Boquets, Baskets, Cut Flowers, and decorations for parties and weddings, received at the garden, as we have vacated our store on Bellevue av., to avoid extortionate rent, which we save by doing all our business at the greenhouses and which our patrons will have the benefit of. Trees of various sorts to be found in addition to the above. Galvin & Geraghty, Dearborn and Spring streets. Newport, R. I. my6

Look at This.

The last ten years have been very disastrous to insurance companies in the United States. More than sixty have failed altogether, and many others have reduced their capital stock or otherwise became greatly weakened. But there are a few that by prudent management and wise liberality on the part of stock holders are much stronger now than ever. Consider the following figures taken from the reports of the Insurance commissioner, of the state of New York, for 1864 and 1874.

Ætna of Hartford, Assets in	1864.	$3,800,430. 93
" " "	1874.	6,845,892. 03
Increase of assets in ten years		2,045,362. 10
Insurance of North America,	1864.	$1,716,171. 79
" " "	1874.	3,263,699. 00
Increase of assets in ten years,		1,547,528. 29
Royal of Liverpool, (American Funds) Assets in	1864.	$1,827,984. 0
" " in	1874.	3,073,483. 8
Increase in ten years,		1,248,499. 78
Hartford, of Hartford, Assets,	1864.	$1,575,920. 48
" " "	1874.	2,476,681. 51
Increase in ten years,		899,761. 03

This wonderful growth during a term of unparalleled disaster is not the result of good fortune merely, for these companies have been the heaviest losers in Portland, Chicago Boston and other cities, and have paid out millions dollars each year. The facts commend themselves to persons who want RELIABLE insurance in these days of trial. A policy in such companies is worth twice as much as one in any of the untried institutions that are springing up on every hand. The rate is the same.

Dwelling houses and their contents insured for five years at very low prices—lower in fact than is charged by many of the Mutuals where the insured is liable to heavy assessments in case of a large fire in any of our larger towns.

Policies written on all classes of property, and losses paid at this agency.

LOUIS B. DAVIS, Agt.

Newport Daily News.
THURSDAY, MARCH 18, 1875.

AGRICULTURAL.

ROOTS AND BUTTER.—Where turnips are fed after milking, care must be taken to prevent the cow from getting them between meals. Sometimes a piece or two will get covered up with hay so that the animal will fail to find it at the time of the main feeding, but will get hold of it a few hours later. Now a very little piece is enough to flavor the milk, and if this piece is eaten only two or three hours or even only half an hour before milking, it will surely impart its flavor. We cannot, therefore, be too careful in feeding turnips and cabbages to cows in milk. The odor is quite volatile and escapes before the food circulates much in the system. If the odor is already in the milk, scalding will drive it out.

SOOT AS A GARDEN FERTILIZER.—Perhaps it may not have occurred to some of our lady readers that the refuse soot of our chimneys is one of the most valuable stimulants and fertilizers they can have for their garden flowers. The following is an incident of practical experience from a lady contributor: During two seasons we nursed, fed and petted the Hartford prolific grape vine—as much for its shade over the window as for the fruit—but it persisted in remaining a stunted cane, yellow, and refusing to climb. Despairing of a shade of grapes and roses, we finally bethought ourselves of soot as a manure, and forthwith made a "soot tea" by steeping a teacup of soot in a quart of water. This we administered, two doses each, to both the tree and the vine. The vine grew six feet in hight in the space of six weeks; the rosebush four feet in the same length of time—both, therefore, rejoiced in living green.

TO OBTAIN FRUIT FROM BARREN TREES.—A correspondent of the American Agriculturist says in relation to obtaining fruit from barren trees—

"I wish to describe to you a method of making fruit trees bear which I blundered upon. Some fifteen years ago I had a small apple tree that leaned considerably; so I drove a stake by it, tied a string to a limb and fastened it to the stake. The next year that limb blossomed full, and not another blossom appeared on the tree, and I came to the conclusion that the string was so tight that it prevented the sap returning to the roots; consequently it formed fruit buds. Having a couple of pear trees which were large enough to bear, but which had never blossomed, I took a coarse twine and wound it several times around the tree above the lower limbs, and tied it as tight as I could. The next Spring all the top above the cord blossomed as white as a sheet and there was not one blossom below where the cord was tied. A neighbor, seeing my trees loaded with pears, used this method with the same result. I have since tried the experiment on several trees, almost with the same result. I think it a much better way than cutting off the roots. In early Summer, say June or July, wind a strong twine several times around the tree, or a single limb, and tie it. The tighter the better, and you will be pleased with the result; the next Winter or Spring the cord may be taken off.

OATS AS HORSE FEED.—It is a very general belief among our people, writes a correspondent, that for horses or mules required to do farm work, no food is as nutritive as corn, and that it is impossible to "keep up the stock" on any other kind of grain. This is a great mistake, however. I am satisfied, from a long and careful experience in the management of draft animals, that good ground oats are by far the most nourishing and wholesome food for either horses or mules on a plantation, for the reason that they are more easy of digestion, are less liable to sour, and are more easily assimilated than corn in any shape. For instance, I never saw a mule or horse fed on good, clean oats troubled with colic or flatulency. I allude only to good oats. If they are musty or mouldy they are the worst possible food, and will produce the worst results; but if they are sound and about four or five months old. I am positive that no other food is as good or possesses the combination of healthful and nutritive qualities that they do, no matter what the work which the animals are required to do. A horse or mule doing very hard work may be allowed to eat as much as he will without injury. He should have just a little good hay or fodder in addition. For an animal doing light work a less quantity may be given, and good condition will be kept up if they are ground coarsely and mixed with chopped feed and sprinkled with a little salt and water. Corn is the most expensive stock food that we can possibly use. Oats are cheapest and most easily raised. Even were corn as wholesome food as oats, the latter are preferable in an economical point of view. But were the cost both equal, I should prefer the oats as the more conducive to the health and serviceability of the stock.

SET THE HENS.—Early chickens pay the best, because you can get more money for less birds. The main help with the first broods is to have some nice, warm coops to confine the hen, with a front to shut up at pleasure and make quite dark, as in cold spells by closing the front it causes the hen to nurse the chickens. I have hundreds in February all in coops without bottoms and had to dig away the drifted snow, which completely covered and hid the whole row: on being brought to light they were more lively than usual, for the snow had kept the cold wind from penetrating, and they were hungry, as it took time to set them at liberty, as there were more than sixty coops, each one having a hen with from eleven to thirteen chickens. This has occurred in several seasons, on some occasions when the ground was wet from the air being thawing. I find some salt hay, short chaffy straw, or sawdust, put on a fresh place and the coop slipped along and put on it. The bare ground is always best when dry enough, and on old sod. My coops were always put about six or eight steps apart and in a row, and moved every day to a clean place; and I have thus gone over several acres, which have shown the effects of the droppings from the chickens by the deep green shade and the stronger growth of the grass. The loss from casualties and disease has never been so great from early chickens and the only extra trouble is the necessary closing of the coops on stormy and very cold days and the feeding oftener than in mild weather. I never gave water so early in the year, but instead fed alternately with soft food, which answers the purpose and saves a deal of trouble; ment once a day or once in two days will do, and then grain and split corn, varied with scalded meal or bread and milk, when very young, as most convenient. I never pay any attention to old women's quackery—never give pepper corns or nught besides the common everyday food which comes readiest to hand; for with little chickens, as with fowls in general, the main consideration is to have them always on the ground (plain mother earth,) with a good sward the better, and clear of poultry dung.—["A Working Farmer," in Rural New Yorker.

THE NEWPORT DAILY NEWS AND THE NEWPORT JOURNAL.

The Newport Daily News is published every afternoon, except Sundays, at the News Building, 18 Church street by Davis & Pitman.

The Newport Journal is published at the same office every Thursday morning, and contains a selection of the best matter in the Daily, including Editorial Discussions of the topics of the week, Literary Miscellanies, and at least one good Story, the Latest Markets, and a complete and comprehensive Summary of the news, local and general. The Journal is a large 36 column paper and contains 50 per cent. more reading matter than any other paper in the south part of the state.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $6 per annum, or 12 cents a week payable to carrier.

The Newport Journal, $2 per annum, in advance.

ADVERTISING RATES.

Ordinary Advertisements, $1 a square, for the first insertion, and 25 cents for each continuance: Ten lines or less, in this type, make a square. Advertisements in Reading matter is charged for, at 50 per cent extra. A discount on these rates is allowed on all advertisements ordered for one week or longer. Funeral Notices 50 cents each.

PRINTING.

Connected with The News is the largest general printing office in the city. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

Newport Daily News.

THURSDAY, MARCH 18, 1875.

THE DAY.

Brooks of Arkansas can't be governor so the President has made him postmaster at Little Rock.

The KuKlux and enforcement acts, the civil rights bill and the force bill, whose friends could not force it through Congress, have all one common object which is to give the federal courts jurisdiction over all cases of blacks against whites. Those courts have always had original jurisdiction over cases in which the two litigants are from different states, and by a single resolution Congress might have accomplished all that it has sought to accomplish by several complicated acts. Had Congress but adopted a resolution last Winter declaring that all colored people are in a state of oppression, then all cases arising between the colored people and people in the state of Alabama, or Louisiana, or Arkansas, would naturally and constitutionally come before the federal courts.

FITZ JOHN PORTER'S CASE.

The case of Fitz John Porter has been brought prominently before the public by his appointment by the Democratic city government of New York to be commissioner of public works. Porter has been trying hard to get a rehearing of his case and there are some reasons why it seems that his request should be granted, not as a matter of right, but as a matter of generosity. It is better that a knave should have a chance to escape than that a good man should suffer punishment. There is some pretext for asserting that Porter's conviction was procured by personal and political ill will, and the government can better afford to give him a new trial than rest under the imputation of persecuting one man to shield another. At the same time it is certain that the case against Porter is a very strong one and whether his defence is a defence at all may be seriously doubted.

The charges against Porter are that on the 27th of August, 1862, while at Warrenton Junction, he received an order to start at one o'clock the next morning and arrive at Bristow Station by daylight to support Hooker who was expecting an early attack from Stonewall Jackson and Ewell. Porter did not start till daylight and reached his destination at 10.20. The Confederate attack was not made when expected and Hooker's defeat was averted. Porter's defence is that his men were tired, the night was dark, the roads impassable, and finally that he reached Hooker in plenty of time. The evidence breaks down the first part of the defence, and it is very questionable if the enemy's remissness ought to palliate Porter's disobedience. It was no thanks to Porter that Hooker was not driven back.

The second charge, to put it as briefly as possible, is that on the 29th Pope found himself hard pressed by the enemy and sent a peremptory order to Porter, who was within sight and sound of the battle with 15,000 men, to advance on Jackson's army, taking it in the flank or rear, and creating a diversion in Pope's favor. Porter received the order lying under a shade tree, and did not move for fifteen or twenty minutes, and when he did arise it was to order his corps backward instead of forward. Porter's defence is that Lee's army of 40,000 men was in front of him, and it was useless for him to attack. Supposing this were so, and it is strongly denied, it is very doubtful if Porter had any right to use his discretion when he received a positive order. That his own corps would have been sacrificed is denied, but had it been so, it would still have been his duty to obey the imperative orders of his superior officer. Pope would have been justified in sacrificing one corps to check the enemy and save his own army.

The *argumentum ad hominem* is as sharp at the handle as it is at the blade, and Porter cuts himself in using it. He claims that Stanton liked Pope and hated McClellan, and for personal reasons sought to throw the blame for the former's defeat on a friend and officer of the latter. But it is in evidence that Porter hated Pope, and sent to the War Department disparaging despatches about him,—a very questionable performance on the part of an officer toward his commander.

Porter's sentence was not approved by President Lincoln till five months after the events spoken of. President Johnson was, like Porter, a Democrat; and he certainly was not fond of Judge Advocate General Holt, or Secretary Stanton, or likely to be influenced by them, but he never reopened the case. President Grant as a soldier is competent to form a fair opinion of the case, and there is no reason why he should be prejudiced against Porter, but he has declined to reopen the case. Porter has obtained favorable opinions from several eminent jurists. What these opinions are worth it is impossible to say, because it is not known precisely on what knowledge of the facts the opinions were given, but so far as we know the political views of these lawyers they are all Democrats. Judge Curtis was and Reverdy Johnson is, and Charles O'Conor is Copperhead, dyed in the wool. It would look better for Porter if he would get favorable opinions from some men who were conspicuous for their loyalty during the war.

It is the Democratic legislature of New Jersey that has requested the President to give Porter a new trial. It is the Tammany government of New York that places him in a lucrative and responsible position, and honors him as it had previously honored his chief, George B. McClellan. With fatal stupidity the Democrats have arrayed themselves against the successful generals of the late war, and on the side of the unsuccessful ones. If Porter is innocent he owes it to himself to keep better company. But in spite of these facts it may be best that Porter should have a new trial, in order to silence all cavilers.

NEWS ITEMS.

Eggs are $1.50 per dozen in Montana.

Forty per cent. of the whole area of Russia is covered with forests.

The catch of furs in Minnesota has been unusually large this Winter.

Newspaper wrappers are being made in London for the Sultan of Zanzibar.

Indiana and Minnesota have just refused to pass compulsory education laws.

The Rev. E. H. Capen of Providence has been unanimously nominated for president of Tufts College.

The National Butter and Egg Association refused by a close vote to condemn the artificial coloring of butter.

The cold weather cracked apple trees in Northern New York from the roots nearly to the limbs, so that a person may see completely through them.

The Atalanta boat club thinks of trying the Englishmen again. If they do, Eustis of the Wesleyan crew and Ginster of Williams will be in the four.

The increase in the use of postal cards in Great Britain for the year ending March 31, 1874, was 7,752,966, the whole number used during the year being 76,986,246.

A new process of sugar making has been introduced in lower Louisiana, which, it is believed, will in time be generally adopted, and cheapen the production of the commodity.

An Enoch Arden case has come up in Quincy, Ill. John Bimpson, a wealthy manufacturer, left for Europe, with two daughters. It was on the United Kingdom, which was never heard from till now, when news is received that Bimpson and his daughter are alive and coming home. In the meantime Mrs. Bimpson has collected $5000 life insurance on Mr. Bimpson's policy, got married and has a child by her second husband.

GENERAL ASSEMBLY.

ADJOURNED SESSION AT PROVIDENCE.

Senate.

WEDNESDAY, March 17.

The senate met at 11 o'clock, Lieutenant Governor Van Zandt in the chair.

Act upon petition of H. T. Rogers and others, for restoration of right to vote in the city of Providence. The committee recommend the passage of the bill.

Mr. Potter said the case of these persons was a bad one, they having been possessed of sufficient real estate to enable them to vote, and having it taken from them by the city of Providence without having yet received payment therefor, the price being now before the courts. They are consequently unable to buy other real estate. But still he did not think the Assembly had any right to pass this proposed act without infringing the constitution and previous acts of the legislature.

Mr. Powel said he thought this "Corkey Hill" scheme one of the most flagrant outrages against the constitutional rights of citizens that he had ever known. The right of eminent domain has of late years been stretched to a most unwarrantable length. Even in despotic Europe there are limits beyond which even crowned heads cannot go. When I was quite a boy I was taken to see the celebrated wind mill at Sans Souci, which Frederick of Prussia desired to get rid of because the flapping and creaking of its sails disturbed him in his garden of his, but could not because the owner would not sell it, and the king could not take it in any other way, and there it has stood, the will of the then owner disinheriting any future descendant who should accept a price for it from the Prussian government. Now the city of Providence has taken these lands, and swept away men's houses, not for any improvement, but because the inhabitants were unsavory voters. What a reason! I believe the whole scheme is not worth the paper it is written on, and I believe all the acts of the city in the premises are mere trespasses, for which the owners could sue and have their remedy at law.

On motion of Mr. Powel the bill was recommitted to the judiciary committee for amendment and further consideration.

[From the House.]

Petition of Mariette R. Stevens, executrix, for leave to sell estate. Referred to committee on judiciary.

Mr. Cross, from the committee on education, reported acts incorporating the Seaside Cemetery Company at South Kingstown, and Mayflower Lodge, No. 31, I. O. O. F., both of which were passed to be engrossed.

Also, acts incorporating R. I. State Council and Providence Council, No. 1, Sovereigns of Industry, both of which were tabled until tomorrow.

Mr. Powel presented the petition of Harvey Chace and others for act renewing the charter of the Rhode Island and Massachusetts R. R. Co., by order of notice to the May session. Referred to the committee on corporations.

Mr. Cross, from the committee on engrossed acts, reported as truly and rightly engrossed an act amending chapter 155 of the statutes, "Of master, apprentices, &c.," and the same was passed as so engrossed.

The senate adjourned to meet tomorrow morning (Thursday) at 11 o'clock.

House of Representatives.

House met as usual, the speaker in the chair.

On recommendation of the judiciary committee, the house concurred in an amendment to the statute concerning writs and the service of execution. The committee recommended an act in relation to the levy and assessment of taxes. The latter provides that tax payers may inspect the tax lists previous to making returns. Considerable discussion ensued, after which, on motion of Mr. Miner, the act was tabled temporarily, and two hundred copies ordered printed.

The report of the joint special committee appointed to select a site for a state house, was called from the table by Mr. Cooke, read, received and ordered communicated to the senate.

Mr. Enton moved that the reports on woman suffrage he made the special order for Friday next, at 11.15; so ordered.

On suspension of the rules Mr. Stiness introduced an amendment to chapter 353, in relation to the office of assistant attorney general. Referred to the judiciary committee.

Mr. Spencer also introduced an act authorizing the attorney general to appoint an assistant and repeal chapter 353.

Mr. Stiness moved its reference to the judiciary committee.

After discussion the act was referred to the judiciary committee.

The committee on corporations recommended an amendment to the chapter of the American Ship Windlass Co., to increase its capital stock. Adopted.

Also the amendment to charter of Ponasganett Railroad Co. Adopted.

Mr. Stiness offered a resolution to appropriate $1500 for additions to the State Law Library. Passed.

Mr. Daniels, from the judiciary committee, reported back an act in amendment of the city charter of Newport, with recommendation. Left on the table till tomorrow.

The house adjourned until tomorrow.

LOCAL AFFAIRS.

—A number of wind bound vessels are in port.

—The Long Branch has been sold to go on the Hudson River, and John Roach, the shipbuilder, has bought the Fall River.

—The police report a very quiet day yesterday and few arrests were made for drunkenness.

—The woman arrested on Bannister's wharf Tuesday evening was Margaret Ryan instead of Mary Riley.

—As a result of pay day several soldiers were locked up in the station house last night for drunkenness.

—The Rev. C. T. Brooks has a poem entitled "The Model Old Bachelor" in the April Old and New.

—Having no visible means of support Bridget Shockerty and her two children were taken to the alms house at the state farm this morning by Officer Albro.

—The northwest gale of last night was unusually severe and marine disasters outside are feared. Vessels in the harbor found it difficult to keep their anchorage.

—The Rev. Charles Howard Malcom, D. D., lectured in Worcester, Mass., last night on the Growth of the English Constitution at the time of the Tudors.

—Those starving horses which were mentioned in the Daily News a few days ago can not be found though the police and private citizens have made diligent search.

—The history of the Unitarian church in this city by the Rev. C. T. Brooks, recently printed in pamphlet form at the Daily News office, can be obtained of Mr. Hopkins, cashier of the Aquidneck National Bank.

—The April Scribner contains the first of Col. George E. Waring's papers on "A Farmer's Vacation in Europe." He also has a spirited army sketch in the Atlantic on "Campaigning with Max."

—While lowering the machinery in Joshua Peckham's grist mill on Commercial wharf yesterday afternoon the hoisting gear parted and a quantity of machinery fell to the floor below, shaking the entire building. The miller, Nicholas Sheiks, narrowly escaped being struck, and the damages were found to be very slight.

—Miss Mary A. Murphy of this city presented on the Parade yesterday morning a handsome bouquet of choice flowers to Thomas J. Lynch, president of the Knights of St. Patrick. The procession halted in front of Mayor Slocum's residence and the band played a selection. The courtesy was acknowledged by the mayor.

—The Newport Artillery Veteran Association, Col. Sayer, have received an invitation from the Ancient and Honorable Artillery Company of Boston to participate with them in the centennial celebration of the battle of Bunker Hill, June 17th. Action will be taken on the matter next Monday evening.

—The sun came out bright yesterday for the first time for over a week; and we noticed the sidewalk in front of Wm. C. Cozzens & Co's store crowded with their usual large incoming Spring stock of carpets indicating that the long Winter is at last over; and our housekeepers can now replace their worn out carpets with the newest patterns. We understand the prices are lower than for several years past.

—In the case of Jane Pollard against the mayor, aldermen and commonalty of the city of New York, where the plaintiff, an aged widow, sued for damages for injuries sustained in falling through a grating on Mott street, judgment was rendered on Friday against the city for $1000, the full amount claimed, and costs. W. G. Peckham, Jr., formerly of this city, for the plaintiff; E. Delafield Smith, counsel to the corporation, for the defendants.

—Last Tuesday Thomas S. Peckham, a well-to-do farmer who lives in Middletown near the laundry, and George Green, a man without permanent occupation or favorable reputation, met at an auction sale in Middletown. Green used some violent or insulting language to Peckham, who resented it and took hold of him. Green promptly made an attack on Peckham with his teeth and bit off the lower part of the latter's left ear.

PERSONALS.—The Home Journal says that John Hocksher is in Florida.—Mrs. William P. Talboys is one of the "lady patrons" of the Lady Washington tea party to be given in New York on the 31st in behalf of the "Sheltering Arms."—Count Corti was present at an entertainment given on the 13th by M. de Lucca, Italian consul general, in honor of Madame Ristori. Madame Gulagar and Bayard Taylor, one of whom has entertained and the other instructed Newporters recently, were present at the same entertainment.

BALL OF THE KNIGHTS OF ST. PATRICK.

The Knights of St. Patrick of this city held their fourth annual ball at the Academy of Music last evening and it was numerously attended. The hall was handsomely decorated with flags, bunting, etc. The music, which was furnished by the Newport quadrille band, Prof. Smith leader, was very fine. The floor manager was M. F. Shea and he performed his duties very acceptably and caused everything to pass off smoothly. The floor committee were Stephen Buckley, C. J. Regan, Dennis Sheehan, John McCarty, Patrick Sheehan, P. M. Shea, M. McCarty, and M. Sheehan.

The reception committee consisted of John Feeney, John Malgan and Thomas Marlin and the committee of arrangements consisted of S. J. Lynch, John Lyons, M. McCormick, John Martin and Michael Coffello to whom the credit of much of the success of the entertainment is due.

The order of dances was carried out and it was daylight before they were finished. "The mazy" was participated in by about two hundred couples. The prompter was B. W. Davis of Bristol who performed his duties admirably. The supper, which was gotten up under the direction of Mr. James A. Matthew, was served about twelve o'clock.

The tables were well laden and the supper was pronounced excellent. Taken altogether the ball was a success, financially and socially.

THE OPERA OF MARTHA.—The closing entertainment of the Newport lecture association will take place tonight, when the opera of Martha will be presented by Redpath's opera troupe. It is rendered by four vocalists only, without a chorus; and it would, at first thought, seem impossible that the effect of an opera could be given by so small a company. But the singing and acting are so graceful, the dresses so pretty and appropriate, and the ingenuity and variety of the plot so great, that the audience quite forget how few performers are on the stage. It was the universal testimony of the few who saw this opera, as represented, earlier in the season, by the same troupe, that it was a peculiarly agreeable entertainment. It is at the same time so simple and innocent in its character that Mr. Talmadge himself might witness it without protest.

SUPREME COURT.

THURSDAY MORNING—FOURTH DAY.—The court came in this morning at nine o'clock. Present, Chief Justice Durfee, presiding, and Associate Justices Potter and Matteson—a full bench.

The bill in equity Samuel Engs against Job A. Peckham and others, which had been set down for a hearing today was the order of business. This is a suit brought to determine the ownership of the dock between the wharves owned and occupied by the respective parties. The Messrs. Peckham claim the right to the exclusive ownership of the dock even to filling it up, the exercise of which right brought on the suit. The matter is to be heard and decided by the court, and the hearing will occupy all of today, at the least, and tomorrow in part, probably, and attracts a large and interested audience.

Mr. Sheffield is counsel for Mr. Engs and Messrs. Tobey and Payne of Providence, for the Messrs. Peckham.

Wm. Slavin, one of the unreported parties against whom a bill of indictment was found by the grand jury yesterday, for keeping and maintaining a liquor nuisance, and who had been arrested on a capias, came into court and was arraigned, and pleaded not guilty and entered into recognizance with John King as his surety in the sum of five hundred dollars for his appearance at the September term for trial.

At the close of the session, we shall give a summary of the proceedings and of the disposition of the docket in particulars.

PORTSMOUTH.

COURT OF PROBATE, March 8th, 1875.—There not being a quorum present, the court was adjourned to the 15th inst.

March 15th. Present John Manchester, William Barker, J. B. Cory, Jacob Mott and William Borden, 2nd, Philip B. Chase, clerk.

An inventory of the estate of Mary A. Greene, deceased, was received, allowed and ordered recorded.

The administrator of Mary A. Greene, was authorized to sell a portion of his inventory at private sale.

An inventory of the personal estates of John Hambly, Mary Hambly and Mary A. B. Hambly deceased, was received allowed and ordered recorded.

An inventory of the personal estate of Oliver Brownell, deceased, was received allowed and ordered recorded.

An allowance of furniture, etc., out of the inventory of Oliver Brownell, deceased, was granted to his widow, Sally Brownell.

A copy of the will of William R. Thomas, late of Fall River, deceased, was received and ordered filed and recorded and letters testamentary were granted to Benjamin Hall, on the estate of said deceased.

The final account of the administrator on the estate of Arnold Albro, deceased, was received and referred with an order of notice thereon.

The final account of the administrator on the estate of David W. Thomas, deceased, is postponed to the first Monday in April next.

The final account of the executors of Horatio Allen, deceased, was received and referred with an order of notice thereon.

TOWN COUNCIL.—Joseph H. Cory was appointed a committee to hire a bridge tender at Howland's ferry bridge.

The lists of voters of Portsmouth were carefully examined and corrected as the law directs.

Bills against the town amounting to $333.87 were allowed and ordered paid.

SUBMARINE WARFARE.

DESCRIPTION OF THE NEW TORPEDO BOAT BUILT FOR THE ARGENTINE GOVERNMENT, AND THE PORTER TORPEDO BOAT OF OUR OWN NAVY.—THE CAPACITIES OF SUBMARINE WARFARE.

The torpedo boat constructed for the Argentine Republic is furnished with an electrical battery, and the torpedo is not exploded by percussion, but as the electric circuit is completed by contact on striking the enemy's ship, all the advantages of the percussion system in causing an explosion at the proper moment for effective damage are obtained, while at the same time, as the battery in the boat can be disconnected with, the torpedo at pleasure, the explosion is completely under the control of the officer in command. This feature greatly reduces the risk of handling such dangerous weapons. When going into action the crew are protected from rifle-shots by sliding steel shields. The boat, of which sketches are given, is fifty-five feet in length and seven feet beam. It is built throughout of iron and steel, is partially decked over, to withstand a considerable sea, and is propelled by a pair of high-pressure engines of sixty horse-power. It is capable of making a continuous run of seventy miles in five hours, but for short distances a much higher rate of steam can be obtained.

The method of attack is as follows: On going into action the torpedo pole is lowered beneath the surface of the water, and the torpedo is driven with great force against the side of the enemy's ship, the explosion taking place at the moment of contact. The extent of the damage inflicted will depend upon the size and composition of the torpedo and the resistance offered by the strength of the object against which it is driven; but one important feature must be borne in mind; that, as the explosion takes place at the very instant of striking, it has a much greater effect than it would have if there was even a small space of water between the torpedo and the ship's side. It has been found that with ordinary charges, if the explosion takes place ten feet below the surface of the water, at the end of a pole projecting about twenty-five feet beyond the bow, the attacking boat, if well built and properly handled, runs but little danger of sustaining damage, while the force of the explosion may send the largest iron-clad to the bottom.

The importance of torpedoes, chiefly as a means of harbor defence, is now acknowledged by every nation which has a coast-line to guard against hostile demonstrations. The earliest method of employing them was to anchor them at the mouths of the threatened rivers or harbors, and the explosion was caused either by percussion or by means of electric batteries from the shore. But, in the first case, the hostile ship may not strike the torpedo; in the second, a little haze or the smoke of guns may prevent the observer on shore from seeing exactly when the torpedo should be exploded; and if neither of these contingencies should arise, the electrical attachments may not work at the proper instant. In fact, with stationary torpedoes the chances are rather in favor of the hostile ship; so much so, indeed, that Commodore Jeffers, chief of the ordnance bureau of the Navy Department, says, in his last annual report, "Little reliance is to be placed in stationary torpedoes for the defence of important harbors, the radius of their destructive effects being quite limited." It has been proved in England by experiments, to which Commodore Jeffers gives attention, that these torpedoes, containing a charge equal to nearly a ton of powder, can be exploded within a short distance of a ship without doing any serious harm.

Experience having shown that the really dangerous torpedo is the movable one, attached to a strong, swift, and easily handled boat, propelled by steam-power, with which an enemy's ship can be attacked and struck, our own and the European governments are now giving the closest attention to the construction of these formidable means of defence. A year ago last November, when there was some danger of a rupture with Spain, a torpedo boat of great size and terrible powers of destruction was launched at the Brooklyn navy-yard. It was designed on a new principle, presenting features until then unknown in our navy, and combining the properties of a torpedo boat and a powerful steam-ram. The extreme length of this vessel is 178 feet; breadth of beam, twenty-eight feet; depth, thirteen feet. It is divided into a series of water-tight compartments, which can be flooded or emptied at pleasure, so that the vessel can be made to sink under water until, if necessary, only a foot remains above the surface. In action nothing can be seen above the decks but an iron-plated pilot-house, a smoke-stack, and grated hatchways. The pilot-house, however, need not be occupied on such occasions, as the vessel could be steered from the engine-room below. She is fitted with three masts, constructed so as to be lowered out of sight during an engagement, but if found necessary they can be run up and sail put on at a moment's notice.

The propelling machinery of this boat is of extraordinary power, and she is capable of attaining great speed. The "ram" tapers downward from the bow, and projects in a horizontal direction a distance of forty feet under the water. At the extreme point of this ram is a bar carrying the torpedo, which can be discharged by electricity on striking the enemy's ship. Torpedo bars on the sides allow of the explosion of these deadly weapons with effect when alongside an enemy, and unable for any cause to attack with the formidable ram.—[Harper's Weekly.

BUSINESS NOTICES.

AUGUST FLOWER.

The most miserable beings in the world are those suffering from dyspepsia and liver complaint.

More than seventy five per cent. of the people in the United States are afflicted with these two diseases and their effect; such as sour stomach, sick headache, habitual costiveness, impure blood, heartburn, waterbrash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of the food after eating, low spirits, &c. Go to the drug store of James H. Taylor and get a 75 cent bottle, or a sample bottle for ten cents. Try it.

The wing of the American House, Boston, damaged by fire in November, has been remodelled, and improved by a fire-proof French roof. The new rooms have been refurnished in a manner reflecting great credit on the proprietors, who seem never wearied in supplying every convenience for the comfort and pleasure of their guests, and thus retaining their well-earned hold on the favor of the travelling public.

☞Just received another lot of those nice sleigh and clipper sleds, which are selling rapidly for 99 cts each; also a large lot of clothes horses 99 cts each. Coal hods, stove poker, lifter and shovel all for 99 cts. Remember Cottrell's block, 2nd door south of post office.

Chicago 10 per cent. Loans.

From $500 upwards, negotiated upon first mortgage of real estate worth twice amount of loan. Semi-annual interest coupons paid PROMPTLY at any named bank. Principal secure.

Explanatory pamphlet and references on application. HORACE P. CHANDLER, 53 Devonshire St., Boston. P. O. Box 1200. jan20-2m-eod-n&j

GILLIE'S CRUSHED COFFEE.

"WHAT'S THE MATTER WITH THE COFFEE THIS MORNING?" would not be asked at all if housewives would always use "Gillies' Crushed Coffee." Java quality. Grocers sell it. mar18-2w-eod-n&j

PIMPLES, which so disfigure the face, arise from imperfect secretions of the porous system. Ladies too frequently resort to pastes and cosmetics. They cover over, but only aggravate the cause. Never use lotions for the skin, but try "Constantine's Pine Tar Soap," which cleanses the skin and eradicates the disease. Sold by Druggists. feb25 2w-eod-n&j

TWENTIETH YEAR for PYLES' SALERATUS and not one successful rival. Everybody acknowledges its superiority in all respects. It is always put up in pound packages under my name, and sold by first-class Grocers. Beware that you are not deceived by the misrepresentations of crafty dealers. JAMES PYLE, Manufacturer. mar11-eod-n&j-4w

CATARRH in the head is always relieved, and frequently permanently cured, by making a suds of "Constantine's Pine Tar Soap" and smelling it up the nose. It can do no harm, it has done great good, and is worthy of a trial. Druggists recommend it. Send three cent stamp for Almanac to Wright Gillies & Bro., New York. mar11-eod-n&j-2w

A Train of Evils.

If weakness of the stomach is allowed to become chronic, the following evils supervene—Digestion is permanently impaired, the system is very imperfectly nourished, the blood becomes thin and watery, and the bile being unemployed for digestive and evacuative purposes, enters the circulation through the thoracic duct, and its coats itself into the superficial vessels, giving to the skin and whites of the eyes the saffron tinge indicative of biliousness. Headache, dizziness, constipation, pains in the side, palpitations, heartburn, dizziness, and many other harrassing symptoms which accompany the internal derangement above described, which if unchecked is as sure to be followed by serious disease, as the rising of the sun by its setting. It is manifest, therefore, that an inability of the stomach to act upon the food should be overcome without delay. The invigorating influence upon that organ of Hostetter's Stomach Bitters is speedily felt in the disappearance of all the disagreeable symptoms alluded to. The prescribed mineral remedies for general debility usually fail to achieve any lasting result, because they do not invigorate the stomach; Hostetter's Bitters always succeed because that is their primal effect. The very fact that they are such an excellent stomachic constitutes them one of the best general tonics in existence. To restore digestion is the final step towards the recovery of health, when imparted by any of the multifarious complaints which spring from dyspepsia, and that step will be found to have been taken by the invalid who has availed himself of this famous anti-dyspeptic remedy.

Take the whole catalogue of medicine and you will not find a preparation so competent to effectually deal with kidney, bladder, glandular and Bright's disease as Hunt's Remedy. Gravel, dropsy, diabetes, suppression and incontinence of urine, pains in the side, back and loins, complaints of the urino-genital organs and female irregularities. It subdues and restores to a sanitary condition the impaired nerve structure.

To the Afflicted. *No matter* under what form of sickness you labor, there is one great truth you should keep in mind: All disease originates in an impure condition of the blood. Purify that, and the disease must depart; but you cannot purify the blood by the use of poisonous drugs, and exhaustive stimulants. The best Blood Purifier ever discovered is DR. WALKER'S famous VINEGAR BITTERS, compounded of simple herbs. feb8-4w

THE NEW REMINGTON is daily increasing in popular favor. The following, from the New Bedford Standard, is but one of many instances.

The Universalist Fair closed Saturday night after a successful run of six evenings. The receipts of the week were upwards of $1200. The sewing machine contest ended with a victory for the Remington. Following are the votes received for the different machines:—Remington, 2765; Singer, 247; Domestic, 243; Elias Howe, 21; Victor, 6; Weed, 1; Bires, 1. Buy a Remington, and you will never regret it. mar17-1w C. DANNING, AGENT, 29 Broadway.

☞The nausea, heart-burn, and constipation which are among the most distressing attendants of pregnancy have been found easily managed by the administration of an occasional dose of Milk of Magnesia, which is now regarded as the friend alike of infants and mothers. Caswell, Hazard & Co., Agents. mar1-1m

☞A timely dose of Milk of Magnesia administered at the outset of an attack of cholera infantum in summer, will, in nineteen instances out of twenty dissipate the disease and ensure the escape of the little sufferer from a threatening serious indisposition. Caswell, Hazard & Co., Agents. mar1-1m

☞Dyspepsia, indigestion, headache, sourness, or acidity of the stomach, cured by Milk of Magnesia. It is by far the most effective and agreeable aperient and antacid known, and only needs a trial on your part to prove this. Caswell, Hazard & Co., Agents. mar1-1m

STEAM CARPET BEATING.

In Connection with the
NEWPORT LAUNDRY.

we have put up a

STEAM CARPET BEATING MACHINE,

by which the Carpets are

Beaten on the Back and Brushed on the Face.

The dust and dirt as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an

EXHAUST FAN,

which also removes and carries out of the room, any moth or other larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Prices for Beating Carpets:

Ingrain and Three Ply, 6 cts. p Yard.
Brussells and Tapestry, 7 " "
Velvet and Wilton, 8 " "

As the machine is under cover, carpets can be beaten in stormy, as well as pleasant weather.

Will be pleased to show and explain the working of the machine to any one who may call at the Laundry.

☞Orders may be sent by mail, Directed to the Newport Laundry, given to the driver of the Laundry wagon, or may be left at J. D. Richardson's Cigar store, 212 Thames street.

☞Carpets called for, and returned free of charge mar12

Newport Laundry.

Contracts made with families if desirable, to do their Washing and Ironing for a stated price per week.

Mattresses made over in the best manner, and all work of this kind Warranted.

JOHN GEORGE P. LEONARD.

Newport Daily News.

THURSDAY, MARCH 18, 1875.

GENERAL NEWS.

FROM WASHINGTON.

St. Patrick's Day.

WASHINGTON, March 17.

A bright, blustering day with dry streets is favoring the large and brilliant display made by the admirers of St. Patrick. The procession will be reviewed by President Grant, and tonight there will be a banquet at Masonic Temple to which many distinguished Americans have been invited.

The Pinchback Issue.

The Democrats are indignant at the failure to create a division among the Republican Senators on the Pinchback case. Pinchback is now master of the situation, as no one else can be elected a Senator from Louisiana, and he hopes before next Winter that public opinion will force every Senator who pretends to be a Republican to vote in favor of his admission.

The Hawaiian Treaty.

The Senate, immediately after the reading of the journal, went into executive session on the Hawaiian treaty. It will be difficult to obtain the two-thirds vote necessary for ratification. The Senate may pass as a substitute for the Louisiana resolution offered last night, the resolution which was passed by the House of Representatives.

Louisiana.

The Conservative committee here state that the action of the Senate in the Pinchback case will not be likely to have any effect on the arbitration compromise. Collector Casey is this morning very much displeased at the result.

The Reason for Postponing Pinchback's Rejection.

WASHINGTON, March 12.

Two reasons are given in justification of the action of the Senators who, though opposed to the admission of Pinchback, voted last night in favor of postponing final action until next Winter. The first is that if the vote had gone against Pinchback, as beyond reasonable doubt it would, the settlement now in progress in Louisiana through the medium of the Hour committee might be seriously affected and in case the proposed compromise was adopted, which there was reason to believe would divide the legislature almost evenly between the two parties, there would be a desperate and perhaps bloody contest for the vacancy. Leaving the case pending will of course be a bar to any other election. The other reason is the obvious one of avoiding for the present the necessity of voting with the Democrats.

A Slim Chance for the Forced Louisiana Resolution.

Today's session of the Senate was occupied exclusively in the consideration of the Hawaiian treaty. It is agreed that the vote shall be taken at three o'clock tomorrow afternoon, after which in open session it is probable that some proposition will be submitted approving the course of the administration in Louisiana. The question of submitting such a proposition, and of its exact form in case it is submitted, will be determined at a caucus tomorrow morning. Whatever is decided upon by the caucus will supersede the Frelinghuysen resolution presented last night. Mr. Morton expresses the opinion this evening that the subject will not be brought up in the Senate, a majority of the members being desirous to close the extra session tomorrow.

FROM NEW YORK.

Terrific Waterspouts.—Extensive Damage to Property.

NEW YORK, March 17.

A Nashville special to the Herald says a waterspout which fell at Fayetteville Sunday evening caused an immense overflow at Norris Creek, which swept away rails, logs, furniture, hogs, cattle, sheep and houses. A small village was suddenly and completely inundated. A house in which a man named Armstrong lived, with a blacksmith shop and all its contents, were washed away, the family barely escaping.

The steam saw mills of Betts were lifted up and carried down stream. Craigie's distillery is gone, and also several smaller establishments. The damage is estimated at $100,000. The water spout continued for about half an hour. As hail fell it congealed into lumps as large as nail kegs, and in this way floated down stream.

Another water spout fell near Lynchburg, carrying away two distilleries, with an immense amount of rails and many outhouses. Hailstones killed the poultry. The hailstones looked like a mass of ice. Hundreds of cattle were drowned. The Tennessee river at Johnsonville is higher than in 1867. The stream is sweeping over the iron bridge at Nashville on the Northwestern Railroad. Johnsonville is completely inundated.

Rivers on a Rampage. Great Damage on the Susquehanna.

A Pittston (Pa.,) special, dated at one o'clock this morning, says: At 9 o'clock last evening three spans of the upper bridge built by the Lackawanna Railroad for the passage of its trains, and valued at $120,000, gave way, and a portion of the wreck caught on the lower passenger bridge, a new structure coming directly into town, and which cost $80,000. Between this and the railroad bridge is another long covered bridge, built during the war at a cost of $20,000. A messenger who managed to cross over the latter bridge at 9 o'clock reports that the banks on the west side are overflowing and cellars of elegant residences along the river front are filling up.

Intense excitement prevailed on both sides of the Susquehanna. Hundreds who came over at an early hour to the east side cannot get back and are in terrible anxiety about their families. The ice suddenly stopped running at about halfpast nine and it is supposed is dammed up at a point six miles below. The ice is accumulating in great masses across the river and the water is backing up at a rapid rate. At the old bridge the ice is lodged directly against the upper side clear to the top. The river is rising at the rate of an inch every five minutes. Everybody is on the streets and all passage to the other side is interdicted. The ice breakers on the new bridge have been swept away, and the structure is tottering at the junction at the north end of the town. The terminus of the railroad bridge is already destroyed. The land lies very low and the water threatens to inundate the locality. Many houses are partly submerged and the occupants are flying for safety. In West Pittston the river is making terrible inroads on valuable property. The flood covered the lower portion of the place and the greatest apprehensions are felt for the safety of several dwellings. The loss must be very great.

Mrs. Tilton not to Testify.

The judiciary committee of the assembly reported adversely today on the action relating to wives testifying against husbands in criminal cases, and the report was agreed to, killing the bill. This bill was supposed to be intended to allow Mrs. Tilton to testify on behalf of Beecher.

Miss Lovejoy's Character to be Vindicated.

The Brooklyn Argus says that Colonel Elliott of Galesburg, Ill., brother-in-law of Miss Sallie Lovejoy, has been East and collected a mass of testimony to show that the innendoes against his kinswoman's character are cruelly baseless, and intends to institute a suit for malicious libel on her behalf after the current trial is ended. The papers, it is said, will be served on Beecher's lawyers at the earliest opportunity.

Bridges Swept Away.

1 P. M. About ten minutes ago the ice began to move out suddenly and with it one span of the magnificent new bridge. Two men were on it at the time but were just rescued when out swung three more spans. This cleared the new bridge with the exception of the east span, which is still standing. Within ten minutes of the first catastrophe loud sounds came from the direction of the old bridge, about a quarter of a mile up the stream, and in a moment after that structure also swept out into the current and was carried away. The loss in bridges alone is not less than half a million.

The Situation at Wilkesbarre.

The ice in the Susquehanna river here broke up slightly at 8 o'clock last night and then remained stationary until 1:30 this morning, when it broke up with a terrible crash and passed down rapidly until 2:30 A. M., when it gorged several hundred feet below the bridge, and still remains in that condition. The river is 23 feet above low water mark and within three feet of the bottom of the bridge, which is in imminent danger, and will in all probability be swept away. All communication with the opposite side of the river has ceased, as the bridge is deemed insecure.

MISCELLANEOUS.

Serious Riot in St. John's Harbor.

HALIFAX, March 17.

A serious riot occurred at St. John's, N. F., on Friday, while the sealing fleet was at work cutting its way through the ice in the harbor. A row took place on board the steamer Queenland, and began between a fireman and one of the sealers. In a short time hundreds were involved in it. The steamer's deck was much injured and the cabin completely demolished. The captain received serious injuries. Bishop Power was sent for, and on his arrival quelled the disturbance. At last accounts it was feared more fighting would occur.

Western Railroad Freights.

CHICAGO, March 16.

The Trunk Railroad lines from New York to Chicago have reduced freight rates on western bound freight as follows: On first class from $1 to 75 cents, on second class from 90 cents to 70 cents, on third class from 75 cents to 60 cents, on fourth class from 60 cents to 45 cents, on special from 45 cents to 35 cents; coffee, sugar and molasses from 80 cents to 30 cents. The Western and other roads, to protect themselves, have adopted arbitrary rates, instead of pro-rating as heretofore. The points from which arbitrary rates are adopted are Chicago, Indianapolis, Cincinnati, Toledo, Fort Wayne and Logansport.

The Burning of Steamer Lewis. Seven Persons Drowned.

ST. LOUIS, March 17.

Another dispatch from Chester, Ill., states that the steamer Lewis took fire from being forced very hard against the wharf boat while landing by a high wind, which upset a blacksmith's forge. The fire was carried under the cook house by the wind, and from this point the flames spread through the upper works of the vessel, and in less than five minutes the steamer was entirely enveloped by fire. Besides the watchman, already reported, Charles Pritchard (colored), fireman, and five unknown deck passengers were drowned, and Edward McGerigan, another deck passenger, perhaps fatally scalded. While the boat was burning the steamer Fannie Lewis came up and took the cabin passengers, 10 or 12 in number, the crew and the remainder of the deck passengers aboard and proceeded to St. Louis.

The Ice at Germantown.

PORT JERVIS, March 17, 12.30 P. M.

The scene at Germantown on the river bank beggars description. The ice is piled on the shore in many places 38 feet high and pieces neighboring thirty tons; about twenty small houses have been torn to pieces and about two hundred are filled with water to the second story. It is reported that one man was killed; his name has not yet been ascertained. Four of the five spans, in all 622 feet, of the Delaware Railroad bridge are gone, leaving one span on the New York side. The piers are all unharmed.

The bridge cost $100,000, and was finished in the Spring of 1872. Chief Engineer Chanute hopes to pass trains over on a temporary structure in a week or ten days. A ferry will be established tomorrow for transferring passengers. The debris of two bridges caught fast on Van Nogs Island, three miles below, thus saving the tower of the suspension bridge.

The damage to the Barrett Bridge Company is about $15,000, and the other losses in the village are about $20,000 more. The river is now going down and the danger is over. About twenty-five small frame buildings nearest the river in Port Jervis were totally wrecked.

South Carolina's Liabilities.

CHARLESTON, S. C., March 17.

Great excitement was caused in the legislature at Columbia, today, by a veto from Governor Chamberlain of the bill to liquidate the floating debt of the state. The governor says the response given by the legislature to his efforts to enforce a policy of rigid economy has not met his expectations. The passage of the legislative appropriation act and an unlimited amount of questionable claims, and the failure to pass the bill to reduce the salaries, have rendered it impossible for him to consent to add one dollar to the weight of taxation which now oppresses the people, and he would regard the approval of this act as an act of unpardonable injustice to all those whose interests he is sworn to protect. The aggregate taxation is now without a precedent and without justification. A vast majority of the claims embraced in the bill are unpaid legislative certificates which have been made to cover vast frauds. These claims, as a whole, do not, in his opinion, constitute a valid obligation of the state, and the commission, as a whole, he is reluctantly compelled to say, does not command his confidence for the work assigned them, nor the confidence of the public. For these reasons he withholds his approval of the bill. A long and angry debate followed the reading of the message. Several prominent colored representatives denounced the governor bitterly. No vote was reached, but the indications are that the Conservatives, aided by the reform Republicans, will be able to sustain the veto.

The Catawissa Bridge at Sunbury, Pa., Carried Away.

SUNBURY, Pa., March 17.

The Catawissa bridge come down the river, roof and all. It struck the Danville bridge and carried away one pier and one span. The water is higher than in 1865 and is rising. An ice gorge between here and Danville cuts off all connection between the two places. Railroad travel is suspended. The bridges at Plymouth and Nanticoke are in great danger. About half the town is in danger of being flooded.

THURSDAY, MARCH 18, 1875.

THE CENTENNIAL.

A PROPOSITION FOR THE EXHIBITION OF MUNICIPAL GROWTH.

The time has arrived when such states as are to be represented in the international exhibition by collective displays of their resources should be fully organized for the purpose. The products must be ready for delivery in Fairmount park next Winter, and their collectors will find the intervening time no longer than the task requires. In several of the states efficient organizations are already diligently at work. But there are some states in which there will be no legislative session in time to take effective action. In such cases we must trust to the enlightenment and enterprise of state and private associations—of agricultural, industrial, historical, learned, religious and benevolent societies—most of which have an organization that would enable them to illustrate their respective specialities without much difficulty.

Connected with this subject, though not perhaps very intimately, is a suggestion which we should like to see urged upon the municipal authorities of our leading cities—of the dozen or more, we will say, whose population exceeds 100,000. These cities have it in their power to contribute a very striking illustration of their share in the almost marvelous growth of the country. It should consist of a series of models in plaster, or cork, or papier mache, of each city, at intervals of time. Old maps and prints would afford data for the construction of reasonably accurate miniature reproductions of the streets, houses and wharves of Boston, New York, Philadelphia and Baltimore as they stood in 1776, and again at decennial or longer intervals. The site of Chicago, for example, in 1830 would exhibit a few log shanties and a fort in a swamp. Successive representations would show her early squalor, with streets sunken in the mud; then her raised streets and blocks of houses lifted bodily upwards; then her appearance the day before and the day after her great fire; lastly, the splendors of the rebuilt city. Scarcely one of our great cities could fail to present a most interesting epitome of its history, if it were thus tangibly set forth. Even where there have been no such wholesale vicissitudes as Chicago would record, or such preternatural growth as San Francisco would demonstrate, the changes are greater in short periods than most of us realize. Who, for instance, that had not seen New York in ten years could escape astonishment as he stood on a North River ferry boat and approached the towering masses of masonry that now adorn lower Broadway, or rode up Fourth avenue to the Grand Central depot? Then, again, we should bear in mind the amused compassion with which the model of New York in 1876 will be regarded at the second centennial, when the great city will stand upon the New Jersey shore, stretching from Hoboken to Communipaw, and from the Hudson westward to Newark and Elizabeth.—[Philadelphia Press.

WHAT IS VEGETINE?

It is a compound extracted from barks, roots and herbs. It is Natures Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good sweet sleep at night. It is a panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the VEGETINE. Give it a fair trial for your complaints; then you will say to your friend, neighbor and acquaintance, "Try it; it has cured me."

RELIABLE EVIDENCE.

The following unsolicited testimonial from Rev. O. T. Walker, formerly pastor of Bowdoin Square church, Boston, and at present settled in Providence, R. I., must be deemed as reliable evidence. No one should fail to observe that this testimonial is the result of two years' experience with the use of VEGETINE in the Rev. Mr. Walker's family, who now pronounce it invaluable:

PROVIDENCE, R. I., 184 TRANSIT STREET.
H. R. STEVENS, Esq.:

I feel bound to express with my signature the high value I place upon your VEGETINE. My family have used it for the last two years. In nervous debility it is invaluable, and I recommend it to all who may need an invigorating, renovating tonic.

O. T. WALKER,
Formerly Pastor of Bowdoin Square Church, Boston.

The Best Evidence.

The following letter from Rev. E. S. Best, Pastor of the M. E. Church, Natick, Mass., will be read with interest by many physicians; also those suffering from the same disease as afflicted the son of the Rev. E. S. Best. No person can doubt this testimony, as there is no doubt about the curative power of VEGETINE.

NATICK, MASS., Jan. 1st 1873.

MR. H. R. STEVENS:

Dear Sir—We have good reason for regarding your VEGETINE a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age; for the last two years he has suffered from necrosis of his leg, caused by scrofulous affection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever rallying; two of the number declaring that he was beyond the reach of human remedies, that even amputation could not save him, as he had not vigor enough to endure the operation. Just then we commenced giving him VEGETINE and from that time to the present he has been continuously improving. He has lately resumed studies, thrown away his crutches and cane, and walks about cheerfully and strong.

Though there is some discharge from the opening where his limb was lanced, we have the fullest confidence that in a little time he will be perfectly cured.

He has taken about three dozen bottles of VEGETINE, but lately less but little, as he declares he is fast well to be taking medicine.

Respectfully yours,
E. S. BEST,
MRS. L. C. F. BEST.

Prepared by

H. R. Stevens, Boston, Mass.

GOSSAMER WATER-PROOF CAPE.

THE MANUFACTURERS claim for the above new style of cape the following:

That they are perfectly water-proof.

That, if worn in the rain twenty four hours, they will not absorb any moisture, while the old style will nearly double its weight, and not keep the wearer dry, either.

That, when rolled-up, they are only seven inches long, and three inches in diameter, and can be carried in the pocket, while the old style is as large and cumbersome as a woolen shawl.

That, being so light-weight, and having no warmth, they are welcomed by all ladies for warm-weather use, or to throw over a winter cloak in cold weather.

That they are not effected by either cold or heat, neither will they become soft and useless with warm damp weather.

That all who have used the Gossamer Capes have expressed themselves perfectly satisfied with them.

That a lady, who has a Gossamer in her pocket, can laugh the troublesome umbrella at home, and if the cold comes before she reaches shelter, with the cape thrown over her, and the hood over the bonnet, she is far better protected than she could be with the umbrella.

For sale at manufacturers' prices.

Newport Testimony.

STATEMENT OF MR. RICHARD STAFFORD.

NEWPORT, Jan. 7, 1875.

W. H. CARPENTER, M. D.—DEAR SIR:—Having received great benefit from your treatment of my case of deafness and discharges from my ears, I beg to offer you my sincere and heartfelt thanks, hoping at the same time this correspondence may be of use to you professionally. To the public I would say, (if you decide to put this in print,) that as the result of Scarlet Fever, I was troubled for the whole of twenty years with a filthy, disgusting discharge from both ears, which made me grow deafer and deafer, and caused a polypus to grow in one ear, and I received no relief until I applied to Dr. C., for a remedy. I at once placed myself under his care, and through his skillful treatment I have completely recovered from the unpleasant and deplorable condition I was in. My faith in Dr. C's skill is unbounded as I considered my case about incurable before applying to him.

RICHARD STAFFORD, No. 8 Cross street.

CERTIFICATE OF MR. JOHN CASWELL.

NEWPORT, R. I., Dec. 12, 1874.

TO THE EDITOR OF NEWS:—I wish to recommend Dr. Carpenter's treatment to such of the community as have Scrofula. I inherited it, and it has always run in my blood, and last Fall it became terrible, injuring my health, and attacking my head and face particularly and so disfigured me that a neighbor that met me did not know me until I spoke to him. I applied to Dr. Carpenter, at the Perry House, and his medicines have met with gratifying success. My health is now good, have very little trouble with the humor, face looks natural, and I hope with a little more treatment, to eradicate the poisonous humor from my system entirely. I reside in Middletown.

JOHN CASWELL.

Catarrh and Polypus.

Home Testimony.

NEWPORT, R. I., Nov. 6th, 1874.

This is to proclaim what Dr. Carpenter has done for me. I suffered from Catarrh 40 years, and the last 10 years my nasal passages were filled with Polypus. I employed physicians from time to time, and two years ago, went to Boston, and was doctored three months, and left off worse than I began, and I was almost discouraged. But I felt that I must do something, for I was obliged to keep my mouth open and my health was becoming impaired. So I went to Fall River last Spring, and placed myself under the care of Dr. Carpenter. His treatment proved highly satisfactory. He removed and cured the Polypus, I can breathe naturally, the Catarrh troubles me very little and altogether I am comfortable and as well as a man 60 years of age, can expect to be, and I hope this testimony may be the means of securing relief to other sufferers. I reside in Middletown.

ASA PEORHAM.

Permanent Cures of Scrofulous Catarrh.

Testimony of a Citizen of Newport.

My son and daughter were sufferers from Scrofulous Catarrh from birth, and with discharges, swellings upon their necks; and an utter inability to breathe through the nose, they were uncomfortable enough, when we placed them under the care of Dr. Carpenter in 1865. His remedies cured them in a few months and they remain well to this day. I publish this with the hope it may be the means of securing relief to others.

S. B. BREWSTER,
PERRY HOUSE,
Newport, Nov. 2d, 1874.

A CARD FROM

Mr. John Beattie Jr.

(From Fall River News.)

FALL RIVER, Jan. 22, 1874.

W. H. CARPENTER, M. D.,—My Dear Sir:—Allow me thus publicly to express my gratitude for the great benefit conferred upon me by your treatment. I was afflicted for years with Catarrh which had become a constant torment to me, the irritation and inflammation having increased until ulceration was the consequence. Your treatment has been attended with the happiest results. I am now comfortable, my head feels well, and I believe myself cured of that terrible disease.

JOHN BEATTIE, Jr.

Mr. Beattie is of the well-known Firm of Wm. & J. Beattie, Jr., Granite Dealers and Contractors, 2 Quarry street.

A CARD FROM WALTER SCOTT, Esq.,

EDITOR OF BORDER CITY HERALD, OF FALL RIVER.

I have known Dr. Carpenter since he commenced practice in this city, and I am satisfied that he is a skillful physician and has been successful in the treatment of a great majority of the cases in which he has been consulted. Of my own personal knowledge, I have reason to testify that quite a number of the individuals cured were nearly hopeless in their condition; some about blind, others deaf, and others laboring under Bronchial and Catarrhal affections, and I have seen the same persons restored under his treatment to their normal state of health. I therefore, knowing these things, without hesitation recommend him to persons suffering from the maladies he has made his special study for years.

WALTER SCOTT.

VOICE RESTORED,

TESTIMONY OF MISS GARDNER.

(From Fall River News.)

DR. CARPENTER:—Dear Sir,—My thanks and gratitude are yours. When we consulted you last April, I was miserable indeed; I had lost both my health and my voice, and for two and a half years I could only whisper faintly. I had been doctored so much that we had little faith in the ability of any physician to restore me, but your treatment has performed a cure. I can talk aloud, and my health is good, better than for years. You may publish this if you wish; and as I do not reside in Fall River, I will refer to Mr. Wm. H. Mason, No. 44 North Main street, and Mr. and Mrs. Mason Rounds, No. 64 Durfee street, with whom I resided during treatment. Respectfully yours,

MISS HATTIE GARDNER.

Swansea, Mass., Sept. 16, 1874.

Scrofula and St. Vitus Dance Cured.

(From Fall River Herald.)

When we took our daughter Ellen to Dr. Carpenter last May, at the Mount Hope House, she was in a terrible condition from Scrofula and St. Vitus Dance, and was not willing to go among folks, for her limbs jerked and twitched so she had not much control over them, but through Dr. Carpenter's skill she has been restored and is now well. We want this cure known, for some of our acquaintances have taken their children to Europe for treatment, thinking they could not be cured in this country. This case is well known by our neighbors.

GEORGE HEAD.

White Block, Border City Mills.

Fall River, Sept. 10, 1874.

Mr. A. D. White's Card.

(From Fall River News.)

FALL RIVER, May 23, 1874.

To my Friends and the Public:

It affords me great satisfaction to be able to testify to the success of Dr. Carpenter in the treatment of my Ears, which were a source of trouble and annoyance to me more than twenty years. Dr. C.'s treatment restored them, and they have been well several months. I have great confidence in Dr. Carpenter's skill and success in practice, and do not hesitate to recommend him.

A. D. WHITE,
Firm of Dennis White & Son,
Troy Building, Pleasant St.

Catarrh and Blindness.

(From Fall River News.)

Testimony of Mrs. J. Olomb, of Fall River.

I was diseased with an aggravated form of Catarrh ten years, and in consequence my eyes became affected in December last, and grew worse until I could not go about without being led. Was under the care of several doctors and at the Boston Infirmary, but got no help until I consulted Dr. Carpenter at the Mount Hope House, April 23. Under his treatment I began to improve immediately, and now I consider myself cured. I think everyone should know there is a physician in Fall River who can cure such diseases. As I am no very well known in this city, I am at liberty to refer to W. Scott, Esq., No. 1 Ferry street, who saw me when I was in a state of blindness and since I was cured.

THE HARTFORD

ACCIDENT

Insurance Company.

Cash Capital, $500,000.

R. D. HUBBARD, Pres. GEO. B. LESTER, Sec.

Insures against all forms of bodily injury induced by accidental means: such as dislocations, fractures, broken bones, ruptured tendons, bruises, cuts, stabs, gunshot wounds, crushing or mangling, burns and scalds, bites of mad dogs or serpents, unprovoked assaults by robbers or murderers, stroke of lightning or drowning &c.

The records of the years are filled with such accidents, and no doubt will be, so long as human carelessness exists. We are beset with them, from the cradle to the grave, and there is scarcely an individual refer, within the sphere of his own family or acquaintance, to some accident in which the indemnity offered by this company would have been a blessing worth much more than its cost.

Policies issued for long or short terms providing for weekly payments, in case of disability, and for the payment of the whole sum, in case of death.

The only company in the country that devotes itself wholly to accident insurance. A yearly policy covers accidents while traveling, while about one's business, while in the street, at home or abroad. The premium on each $1,000 is so small that every man able to secure a policy without the slightest embarrassment. For full and complete particulars inquire of

REASONS

FOR INSURING WITH THE OLD

Insurance Company of North America,

PHILADELPHIA.

1. It is the **Oldest Insurance Company in America**, having commenced business in **1794**—and therefore entitled to confidence on the score of **Stability.**

2. It has done a **Successful Business** for **80 Years**, thereby demonstrating the **Ability of its Management!**

3. It has uniformly maintained, during its long career, the **Highest Reputation for Integrity and Honorable Dealing**—justifying, thereby, full faith that your rights will receive fair and liberal protection.

4. It has paid **Losses** in cash, exceeding **$34,000,000**, without the deduction of a cent, or a day's delay—a sufficient evidence of the **Wealth** of its Resources, as well as a disposition to meet promptly all liabilities.

5. It has a **CASH CAPITAL and SURPLUS** of **$4,858,812.96**, securely invested—an ample **Guarantee Against Disaster**, in the event of unusual and extraordinary losses, which have often swept away companies of limited means.

6. It insures all the better class of property on **Liberal Terms**, for long or short periods, and settles all honest claims for losses, **Promptly and Equitably**, at the Agency where the Insurance is effected—observing in all its business relations, the **Golden Rule.**

The Insurance Company of North America, writes policies at the same rates as are charged by weak and small companies, though affording double security.

Very low rates on dwelling houses and their contents for three or five years.

Policies made and losses settled at this office.

L. D. Davis, Agent.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 78 State St., opp. Kilby St., Boston.

AFTER AN EXTENSIVE PRACTICE of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with despatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents; they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
Boston, Jan. 1 1875.—1yr-eod

HAVE YOU TRIED

JURUBEBA?

ARE YOU

Weak, Nervous, or Debilitated?

Are you so Languid that any exertion requires more of an effort than you feel capable of making?

Then try JURUBEBA, the wonderful tonic and invigorator, which acts so beneficially on the secretive organs as to impart vigor to all the vital forces.

It is no alcoholic appetizer, which stimulates for a short time, only to let the sufferer fall to a lower depth of misery, but it is a vegetable tonic acting directly on the liver and spleen.

It regulates the Bowels, quiets the nerves, and gives such a healthy tone to the whole system as to soon make the invalid feel like a new person.

Its operation is not violent, but is characterized by great gentleness, the patient experiences no sudden change, no marked results, but gradually his troubles

"Fold their tents, like the Arabs,
And silently steal away."

This is no new and untried discovery, but has been long used with wonderful remedial results, and is pronounced by the highest medical authorities, the most powerful tonic and alterative known.

Ask your druggist for it.

POND'S EXTRACT

CATARRH.—Pond's Extract is nearly a Specific for this disease. It can hardly be excelled, even in old and obstinate cases. The relief is so prompt that no one who has ever tried it will be without it.

CHAPPED HANDS AND FACE.—Pond's Extract should be in every Family this rough weather. It removes the soreness and roughness and softens and heals the skin promptly.

RHEUMATISM.—During severe and changeable weather no one subject to Rheumatic pains should be one day without Pond's Extract, which always relieves.

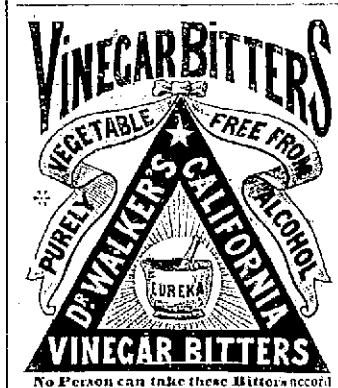
SORE LUNGS, CONSUMPTION, COUGHS, COLDS.—This cold weather tries the lungs sorely. Have Pond's Extract on hand always. It relieves the pain and cures the disease.

CHILBLAINS will be promptly relieved and ultimately cured by bathing the afflicted parts with Pond's Extract.

FROSTED LIMBS.—Pond's Extract invariably relieves the pain and finally Cures.

SORE THROAT, QUINSY, INFLAMED TONSILS and AIR PASSAGES are promptly cured by the use of Pond's Extract. It never fails.

POND'S EXTRACT.—Pamphlet, history and uses with each bottle, and mailed free on application to your druggist, or to 98 Maiden Lane, N. Y. Sold by druggists. mar5-4w



No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

They are a gentle Purgative as well as a Tonic, possessing the merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humor and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.
